

Roy Guse, M.D.

Orthopedic Surgeon

Specialties

Orthopedic Surgery, Adult Reconstruction and Joint Replacement Specialist, Sports Medicine, Complex Foot and Ankle Surgery

Areas of Interest

Knee, Hip, Shoulder Joint Replacement and Joint Reconstructive Surgery. Sports Medicine, Foot Surgery - Bunions, Curley Toes, Fractures.

Roy Guse M.D. has been practicing in Lufkin, Texas, since 1997. He brought to East Texas fellowship training in Joint Replacement Surgery and 13 years of orthopedic experience in the US Air Force. The last four years spent at Wilford Hall Medical Center, San Antonio as the Orthopedic Deputy Dept. Chairman, Chief of the Adult Reconstruction Service and Consultant to the Air Force Surgeon General on Joint Reconstruction.

I chose Lufkin, Texas, to start my civilian practice for the following reasons: 1. Lufkin has two outstanding hospitals that are committed as I am to bringing the latest in cutting edge joint replacement technology to our patients. 2. The medical community of Lufkin has caring and excellent subspecialists in all the critical areas. 3. The Lufkin community is filled with many wonderful people and opportunities for my family and is close to my wife's hometown.

My medical philosophy is simple – treat every person with respect, teach you about your medical condition and offer you a variety of treatment options to choose from. My staff and I look forward to meeting you.
